

Home is where our heart is.

In 1966, Ted and Judy Purington started Maine Drilling & Blasting from their kitchen table right here in Gardiner. And even though we've grown, serving other local communities with offices now in New Hampshire, Massachusetts, Vermont, New York and Connecticut ...this is still our home.

We're proud to be a long-time member of the Gardiner business community, and contributors to our local economy, area schools, and community causes.

The Purington family, 2006
