Maine Drilling & Blasting Operating from New Bethel PA Facility

(Gardiner, ME • 25 September 2015) Maine Drilling & Blasting, one of the nation's best-known drilling and blasting companies, announces the opening of its new regional facility located in Bethel, Pennsylvania. The Company relocated at the end of May from its interim location in Myerstown, PA to this newly constructed facility.

“We broke ground last October, and our MD&B local team is very excited to be up and running from this new facility. We’ll be able to give our customers even better service at the most effective costs,” shares Travis Martzall, Division Manager for Company’s Mid Atlantic construction division.

The facility provides engineering, safety, administrative, material storage and maintenance support to the Company’s operation. Finished space includes offices for eight operational support personnel, a storage area for deliveries, parts, tools and small supplies, and a two-bay maintenance garage for heavy equipment and vehicle repair.

“Maine Drilling & Blasting’s capital investment in this new regional facility,” states Regional Vice President, Todd Barrett, “will better support our commitment to continued growth and local customer service to the Mid-Atlantic region. This market offers great potential for us, and the businesses and contractors here deserve nothing less than our best efforts and resources at the ready.”

The Company will hold a Customer Open House on Friday, October 16 from noon to 5PM. Heavy hors d’oeuvres from 12-2. General public walk-ins welcome.

Maine Drilling & Blasting, recognized as a leader in the industry and a long-term contributor to the local communities it serves, offers drilling and blasting services to the construction and quarry markets, along with a variety of specialty services throughout the Northeastern United States, including rock bolting, hoe ramming, engineering, public relations, preblast surveys and packaged and bulk explosive distribution. In addition to the corporate office in Gardiner, Maine, Maine Drilling & Blasting has offices in New Hampshire, Vermont, New York, Massachusetts, Connecticut and Pennsylvania.
