Maine Drilling & Blasting Partners with Habitat in Massachusetts

Holliston, MA, June 2019 – Joining together again, several Maine Drilling & Blasting employees volunteered on a build site with Habitat for Humanity of MetroWest/Greater Worcester, this time, doing extensive rehab on a 110-year-old, 3-bedroom, 1.5 bath house sitting on .5 acres that had been abandoned for several years. The MD&B volunteer crew worked together and despite the heat, much was accomplished including work in the attic, framing and removing old nails. After renovations, this Habitat home will welcome their new owners, which is scheduled to be completed and awarded in early summer of 2020.

Maine Drilling & Blasting, recognized as a leader in the industry, provides drilling, blasting and related specialty services to the construction and quarry markets throughout the Northeastern and Mid Atlantic United States. In addition to the corporate office in Gardiner, Maine, Maine Drilling & Blasting has offices in New Hampshire, Vermont, New York, Massachusetts, Connecticut and Pennsylvania.

About Habitat for Humanity

Founded in 1976, Habitat for Humanity has become a global nonprofit housing organization containing different chapters in local communities across all 50 states in the United States and in approximately 70 countries. Habitat's vision is of a world where everyone has a decent place to live, and to do that, they partner with families in need of decent affordable housing to help build their own homes alongside volunteers and pay an affordable mortgage.
